

Year R Learning Journey

Week beginning: 17th September 2018

Next week our topic will be:

Marvellous Me

It has been a fabulous week getting to know your children better. We have been impressed with how they have settled into their new classes. Next week the children will be learning about families. We will be looking at the similarities and differences between our families and using our counting skills to count how many people we have in our family. In maths we will be looking at number formation and counting to, and for some of us beyond, 10.

Please remember:

To make sure your child's jumper has a name in it as we do not want them getting lost.

Words of this week:

the and I

Sounds game for the week:

Can your child tell you the first sound they can hear in words?
For example 's' for sun.

How you can help at home:

- ✓ Practise name writing with your child.
- ✓ Help your child recognise their own name at home.
- ✓ Please read with your child as much as possible. Talk about the front cover first; what do the children think the story might be about? Then talk about the pictures before you read the words. What can you see? What do they think might happen next?
- ✓ When you are walking to school, can you practise counting to 10? Can you practise counting to 20?

Home Challenge

To return the all about me boxes, so your child can talk to their friends about their box.
