How can you help your child at home?

Below are some suggested activities you may like to try with your child.

How to be a historian.

How do photographs tell us about the past? Have a look at photos from the past- what do you notice? Differences/similarities?

How to be a scientist.

What is a food chain?

The Food Chain Of An Owl

A food chain shows the path of energy from one living thing to another. Decomposers like bacteria, are necessary for all food chains.

Ways to support your child:

Make sure you attend school daily and punctually.

Read together daily and practise phonics.

Support your child to complete their weekly homework.

Talk to your child about what they have been learning about in school.
